Be transformed on Queen St

Step into our welcoming space and be prepared for an incredible transformation.

A trip to Esstudio Galleria is like no other hair and beauty experience.

Sit back and choose from our menu of teas, coffee and wines, and expect a friendly welcome from our salon doggies, Ox and Onyx, while we work our magic on your hair.

We specialise in colour and partner with only the best including Redken, Olaplex, Wella, Staino, Fab Pro and Guy Tang.

From bold and bright to soft and subtle, for us in the Esstudio family all that matters is that you are heard properly. There is nothing more gratifying than a client leaving the salon with a spring in their step and a glint in their eye. It's what happens at Esstudio Galleria.

Our Beauty on Queen St

Its own little world

Our space on Queen Street is #vibes
but step into our beauty rooms
and decompress.

This tranquil space is soundproofed from
the rest of the world so strip back from
any modern day distractions and allow
yourself to sink into a deep luxurious
pamper-me mode.

We go above and beyond to ensure you
look and feel your best because that's
exactly what you deserve.

We have an extensive list of treatments
that you're about to read all about. We
even have a steam room for Pete's sake!

“

As relevant as ever now

DERMALOGICA

Dermalogica is our go-to brand for so many reasons.

While we have you covered in terms of pampering, Dermalogica is founded on the belief that good skincare is not about pampering or luxury.

Dermalogica is committed to professional skincare with no-nonsense packaging, instead there's an emphasis on skincare education and education to formulating products that deliver results.

The company has essentially become a household name since it began in 1986 due to its award winning revolutionary product creations.

All product formulas are free of: artificial colours and fragrances, mineral oil, lanolin, S.D. alcohol, parabens and microplastics.

Dermalogica is recognised cruelty-free by PETA (People for the Ethical Treatment of Animals) - which keeps us animal (doggie) friendly people happy!

DERMALOGICA FACIALS

ProSkin 30 Facial

30 mins 80

Targeting your key concerns for maximum impact in minimum time!

This is a fully-customised treatment using products tailored to your skin needs to double cleanse, advanced exfoliate, mask, tone and moisturise.

ProSkin 60 Facial

60 mins 115

Have your cake and eat it too. This bespoke treatment is the ideal choice for those who want a comprehensive experience that addresses an array of your skin concerns whilst indulging in relaxation.

As above, this personalised treatment takes you one step further on a sensory journey, receiving high impact treatments using the latest product innovations to achieve your healthiest skin.

Then unwind with a relaxing head, neck and shoulder massage

Esstudio Signature ProSkin Facial

85 mins 170

Serene. The big cheese. A super-de-duper deluxe treatment.

We believe stress relief helps with anti-aging so we've created this treatment, covering all bases of stress relief to turn back time - you're in a horizontal time machine. This facial includes everything that our ProSkin facial offers with added extra head, neck, shoulder, hand and foot massage. And an added extra?

Our face frame package of eyelash tinting, eyebrow tinting and eyebrow tidy.

Men's ProSkin Facial

50 mins 100

A deep cleansing and relaxing facial with facial waxing (brows not included) that is needed with a head, neck and shoulder massage.

Optional peel included

DERMALOGICA PRO PEELS

DERMALOGICA Pro Power Peels are an advanced system that helps conquer the effects aging has on your skin. Our cell turnover slows down dramatically as we age and as this happens it affects the skin in ways such as pigmentation, fine lines, wrinkles and acne breakouts. Chemical peels deeply exfoliate the skin to address all these issues. Our Power Peels are not a one-size-fits-all, they are a 'unique to you' treatment as we tailor the experience to your individual skin concerns, helping you achieve healthier, younger-looking skin.

Pro Power Peel 30

30 mins 100

A powerful peel in express time, smoothing skin while targeting individual skin concerns such as signs of acne, hyperpigmentation, and premature aging for a completely customised experience. Dermalogica Power Peels stimulate collagen and elastin production, leaving the skin feeling smooth and luxurious.

Pro Power Peel 50

50 mins 160

Ultra-potent and completely bespoke. You've never had a peel like this before. This is a comprehensive one-hour treatment paired with our most powerful peel, with advanced techniques to thoroughly address our skin's ever-changing needs. We will also nourish your skin with serums and masks after the peel for a complete treatment and a bonus head massage. And a Bonus RED/NIR light therapy to sooth and restore your skin. The first session comes with a home care pack. Peel courses can be recommended upon consultation.

THE ULTIMATE SUPER FACIAL

The Geneo works with the body, never against it.”

Its a no down time 3 in 1 super facial!!

Our New GeneO®+ redefines facial treatments by combining the innovative OxyGeneo treatment with advanced Pollogen TriPollar® Skin Tightening and Ultrasound Product Infusion technologies. Its a next-level treatment that makes your skin glow like the full moon, like you were sent from heaven above to grace the Earth with your radiant complexion.

The oxygene facial capitalizes on a well-known effect called ‘Bohr effect,’ to trigger the body to oxygenate the skin naturally from within. The Bohr effect is a natural process that takes place in our body from the moment we come to the world and until the moment we leave it.

The TriPollar® Skin Tightening produces natural collagen regeneration for a visible improvement in the appearance of fine lines, wrinkles and lax skin. Ultrasound Product Infusion then enables increased absorption and efficacy of serums. This exclusive combination improves skin tone, evens texture and nourishes the complexion to provide a balanced healthy glow.

You will immediately see and feel the difference.

Visible results from the first treatment

- Oxygenation generated from within
- Reduction in fine lines, wrinkles and lax skin
- Firmed and rejuvenated complexion
- Optimal absorption of revitalising nutrients
- Overall refinement in skin tone and texture

GeneO®+ is a one-stop facial that softens fine lines, reduces wrinkles, revitalises dull complexions and provides an overall improvement in texture and tone.

GENEO TREATMENTS

OXYGENE FACIAL

35 MINS Face - \$149 or Face/Neck 175

Using tailored Geneo Oxy Pods and serums for your specific skins needs. We oxygenate and exfoliate at the same time. Think microdermabrasion and oxygen facial in one! This includes using Professional Dermalogica serums and mask infused with Ultra sound for better absorbtion.

TRIPOLLAR SKINTIGHTENING

45 MINS Face - \$175 or Face/Neck 200

Patented technology by Pologen

TriPollar Skin Tightening produces natural collagen regeneration for a visible improvement in the appearance of fine lines, wrinkles and lax skin and then we use Ultrasound Product Infusion to enable increased penetration of corrective Dermalogica products that is chosen to match your specific skin needs. This is a perfect treatment if you have a event on and want to look your best! So relaxing and feels like a hot stone facial massage.

THE SUPERFACIAL

FROM 75 MINS Face - \$275 - Face/Neck \$300 - Face/neck/chest \$350

Our Super Facial redefines facial treatments by combining the innovative OxyGeneo treatment with advanced Pollogen TriPollar® Skin Tightening and Ultrasound Product Infusion technologies. This Treatment is a combination of all 3 modalities that the Geneo offers Tripollar RF skin tightening, Oxygeno oxygene facial and Ultra sound product infusion. You will see a result from your very first treatment. No downtime and still super relaxing.

DERMAPLANING

This treatment is designed to not only leave the skin soft, smooth and bright but exfoliates off old cells to promote cell regeneration, stimulate production of collagen & elastin and improve hydration.

The best bit about this facial (and this is what makes it SO different) is it literally removes the fine hairs on your face (aka 'peach fuzz'). This not only means you get all of the above results but you also end up with completely bare skin allowing your products to be properly absorbed, and penetrate deep within the skin.

Basically, all of this equals reduced wrinkle depth and volume – yes please! ...Oh, and we should probably mention that your makeup application will be super smooth and even too.

Dermaplaning is a skin resurfacing technique but with ZERO downtime. Using a surgical grade blade to remove the hairs and dead skin you're left with the smoothest and barest skin you've EVER felt on your face.

This treatment is combined with our RED Light for extra healing.

Warning.....Its highly addictive and you may want to do it once a month!

Dermaplaning and RED/NIR light facial.

60 mins

150

This facial involves the use of Dermalogica products with a double cleanse to fully remove any impurities before the Dermaplaning. Depending on your skin type we will may then exfoliate your skin or even a peel prior to using serums and a mask with RED/NIR light therapy to calm down any redness and give your skin a healthy glow to send you on your way!

COLLAGEN INDUCTION SKIN NEEDLING

Microneedling is an advanced treatment for hyperpigmentation, pores and wrinkles

Micro needling has rapidly gained popularity in the past decade. Today, this minimally-invasive procedure is one of the most requested skin treatment's globally to treat pigmentation, fine lines, wrinkles and visible pores.

A growing body of research demonstrates the various applications micro needling has in the treatment room. Recent studies have shown that the technique is able to stimulate collagen production, and that is also effective in targeting the melanocytes responsible for melanin overproduction and hyperpigmentation.

HOW DOES IT WORK?

Micro needling works by triggering the body's wound healing process. By using fine needles to make minuscule, evenly-spaced micro-injuries, the treatment stimulates the healthy tissue surrounding the micro needling wounds to repair the damage. This triggers production of collagen and elastin - rebuilding the skin's dermal structure and helping to reduce the appearance of wrinkles and texture irregularities such as acne pitting or stretch marks.

Our treatments are fully customised to your skin concerns and desired results. It is recommended to have 3 consecutive treatments monthly to start.

The skin needling facial with RED/NIR light therapy from 60 mins 275

This treatment starts off with a soothing cleanse to eliminate toxins and clean the skin.

We then may use one of our Dermalogica specific bespoke peels to fully prep your skin.

Then we perform the needling treatment using our targeted serums to the specific concern.

The needling creates channels for the infusion of serums into your skin. The channels will then infuse the serums into the deeper layers of the skin and leave you glowing!

We then use the RED/NIR light to calm your skin after the session and remove redness.

The usual healing time after needling is 3 weeks. Your skin may be red for 48 hours and it is advised not to wear makeup for at least 48 hours after your treatment.

Get ready for beautiful smooth glowing skin!

LASHES

Lash Extensions are semi-permanent synthetic, faux mink fibres attached to your natural lashes. After a short consultation to determine your look from natural to ultra glamorous, lay back and relax while Jax applies your vegan-friendly and fabulous lashes strand-by-strand with precision. We use a latex-free adhesive that will not irritate or damage the natural lash. You will be transformed in approximately 75 minutes.

LIFT THOSE LASHES!

Lash Lift is an advancement on the old fashioned 'lash perm. Unlike the perming rods used in the past, new specially-created silicone pads lift the lashes from the root only, creating a subtle, natural looking lift. The Lash Lift gives the illusion of length, and makes the eyes appear more open. We then add a tint that adds extra depth and darkness.

HOT AND SWEATY ROOM

Your Healing starts here! With RED and NIR light therapy.

Red Light Therapy emits light wavelengths that penetrate the skin to stimulate your body's natural healing and regeneration processes.

Red and Near Infrared light protect your body's cells.

Only Red Light Therapy can reach all the way into a cell's mitochondria to stimulate healing and regeneration, improving your appearance, performance, and overall well-being.

Red and Infrared heat works something like this: Imagine a sunny day in the middle of winter. The air around you is cold, but the sun warms your face. That's the sun's infrared rays at work, warming your face as they penetrate your skin. You feel the warmth despite the cold ambient temperature of the air around you.

Benefits of the lights

There are over 4,000 published medical studies detailing the effect of light therapy on a multitude of conditions ranging from osteoarthritis, inflammation, tendon lesions, nerve regeneration, peripheral neuropathy, bacterial infections, non-healing wounds, anxiety, insomnia, Alzheimer's, Parkinson's disease, sports performance and exercise recovery. More recently, there is evidence of the positive influence light therapy has on the gut microbiome.

Use Light Therapy for treating and relieving a range of common ailments and feel the benefits yourself. Try it for some of the following:

Arthritis/Joint inflammation
Chronic Muscular pain tendonitis
Lymphatic drainage/Oedema
Peripheral circulation
Non-healing ulcers/Bruising
Skin ageing and scarring
Bronchial congestion

Post exercise recovery
Brain fog
Insomnia
Concussion
Headaches/Migraine
Flu and virus recovery
Stress ReliefAnd many more!

WATERLILLY SPA

From the very first active ingredient, Waterlily reflects green science, creativity, transparency, purity and superiority in formulation. Capturing the therapeutic properties of clinical grade essential oils, potent vitamins and rejuvenating antioxidants in a high-performance botanical collection, each SPACEUTICALS and Waterlily product proactively protects and nourishes the skin while delivering remedial healing benefits to combat the signs of premature skin damage.

CLEAN GREEN AND AUSSIE MADE

Essential oils are the cornerstone of each Waterlily formulation. Did you know it takes 5,000 kilograms of hand-picked rose petals to make just 1 kilo of rose essential oil? The complexity of nutrients and active ingredients delivered in a single drop are profound.

As if that isn't enough ; essential oils are bio-chemically compatible, they have the same chemical building blocks as us: carbon, hydrogen and oxygen. This means our skin cells have the ability to recognise, absorb and metabolise the compounds so we can use them effectively. Essential oils are natural so we can eliminate the by-product safely. Being transdermal, essential oils have the ability to sprint into the layers of the skin where healthy new skin cells are formed, activating your body's rejuvenation and regeneration. Essential oils are also aromatic; when we inhale them, we activate parts of our nervous system that regulates our body chemistry to instil calm, minimise stress and improve overall wellbeing.
